Governance, Risk, and Compliance (GRC)

GRC helps transform inefficient processes across your extended enterprise into an integrated risk program. Through continuous monitoring and automation, the applications deliver a real-time view of compliance and risk, improve decision making, and increase performance across your organization and with vendors.
Automate and manage policy lifecycles and continuously monitor for compliance.

Enable fine-grained business impact analysis to appropriately prioritize and respond to risks.

Use risk data to scope and prioritize audit plans and automate cross-functional processes.

Continuously monitor, detect, assess, mitigate, and remediate risk in vendor ecosystems.
