Healthcare and Life Sciences

Discover how digital transformation can redefine healthcare experiences and outcomes, without compromising on security or compliance.

Drive digital transformation
Use foundational capabilities built on the Now Platform to extend the existing data model.

Reduce operational risks and improve digital engagement
Create and view consent policies and forms. Send forms to patients, clinicians, or vendors to be signed online.

Improve productivity of patient and care teams
Provide a guided experience to patient and care teams with playbooks and case management.

Meet the challenges of global disruption in healthcare
Manage COVID-19 and seasonal influenza immunization at scale.
