

Now Platform capabilities

Expand the services your system of action delivers with Now Platform capabilities. Activate and configure these optional features to create custom business logic, security, and user interfaces.

Automate work for everyone with Flow Designer

Empower anyone to quickly build and extend modern workflow apps. Use a single, unified platform to work across the enterprise.

Connect your enterprise with IntegrationHub

Build reusable workflow apps, powered by your business data, on a single platform. Extend your own apps by using available integrations or by building your own.

Create engaging app experiences with Service Portal

Design a self-service user experience with a responsive portal interface. Create an app portal that allows you to browse options, discover articles, or get help.

Improve agent efficiency with Agent Workspace

Work on multiple issues concurrently with an optimized, intuitive layout.
