

Workplace Service Delivery Suite

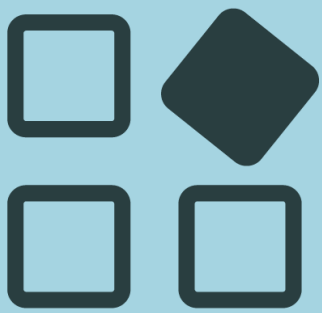

As organizations prepare to resume business from their workplaces, use workflows to enable your employees return to company workplaces.

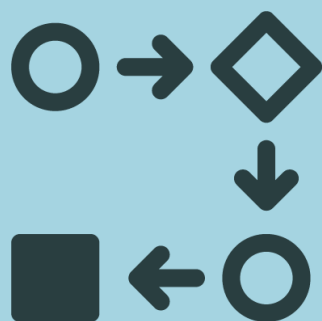

Create safe, managed processes for returning employees to the workplace

Establish distancing plans, shift assignments, sanitation scheduling and manage workspace allocation in stages.

Enhance reservation experience for your employees

Provide a unified reservation experience to your employees with ease of submitting and tracking reservation requests for meeting rooms and desks straight from the Service Portal.

Create workplace services to fulfill employee requests

Automate and standardize the fulfillment of employee inquiries and requests, improving organizational efficiency and making it easier for employees to get the services they need.
